

DIGITAL CLEAR

Digital Clear is our transparent printable film which creates borderless transfers that are easy to weed, vibrant in colour while uniquely showing the garment texture through the transfer. The use of invisible contours and patches provides a quicker method to produce visually appealing logos. Due to its uniqueness of printing in 'mirror' on the glue side, when applied to the garment it locks the ink behind the clear film creating a physical barrier against wash and wear. This also means there is no need for application tape.

RECOMMENDED FABRICS:

- Cotton/Polyester Blends
- Nylon

WHITE/LIGHT COLOURED GARMENTS ONLY

Please note: Always check fabric makeup and test press when possible.

TECHNICAL INFORMATION:

Thickness: 45 Microns

Finish: Matte

Carrier: Static (No stick)

Rating: OEKO- TEK Standard 100 Certified

PRINT INSTRUCTIONS:

Printer: Mild Solvent / Eco Solvent

Mode: Print & Cut

Recommended Profile: Contact us for info

Heaters:

Pre: 30-40°C (environment dependant)

Print: 30-40°C (environment dependant)

Post: 35-40°C (environment dependant)
